

Date DEC 2023	By CTG		Notes: 1) This visualisation is a cylindrical projection panorama. It provides landscape and visual context only. 2) Data results have been derived directly from the computer model of the landform and include the effects of atmospheric refraction and the Earth's curvature. They do not take account of visual screening from obstacles such as existing built form and vegetation. 3) All directions given as bearings relative to Grid North (BN0). 4) The panel locations of the Proposed Development (blue boxes) are illustrated for reference if visible within the location map area (left).
